

# The Light of Peace

You ask "What can I do?"

Well, you can do your best

Use your hands and your heart

the Universe will do the rest

Chorus

The Light of Peace can shine

In our world

In our time

The face of peace is mine

when it smiles when it shines

Life is just a few breaths

when it's over you get to rest

Nothing valuable is free

The world is what we want it to be
